

service, quality and warranty
arreche precision bar turning

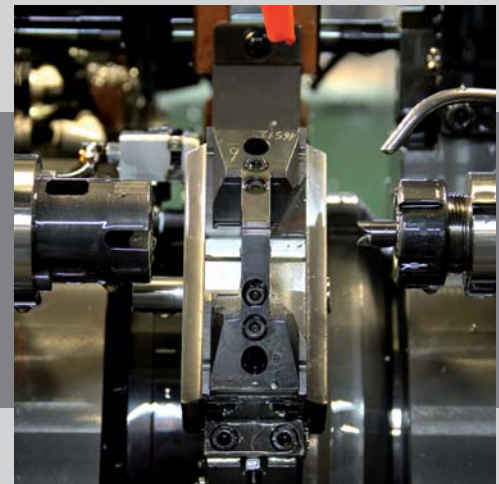

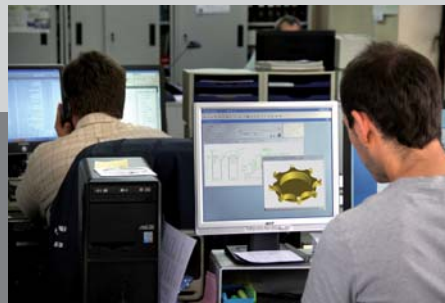

arrecehe customers service

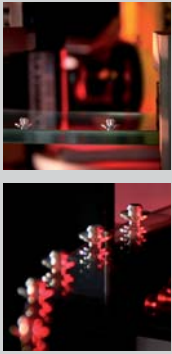

Adaptability, meeting delivery times, quality and price are our main working guidelines, with our aim being to ensure absolute customer satisfaction.

TALLERES ARRECHE S.A. was founded in 1948, and it is devoted to the manufacturing of **precision bar turning**.

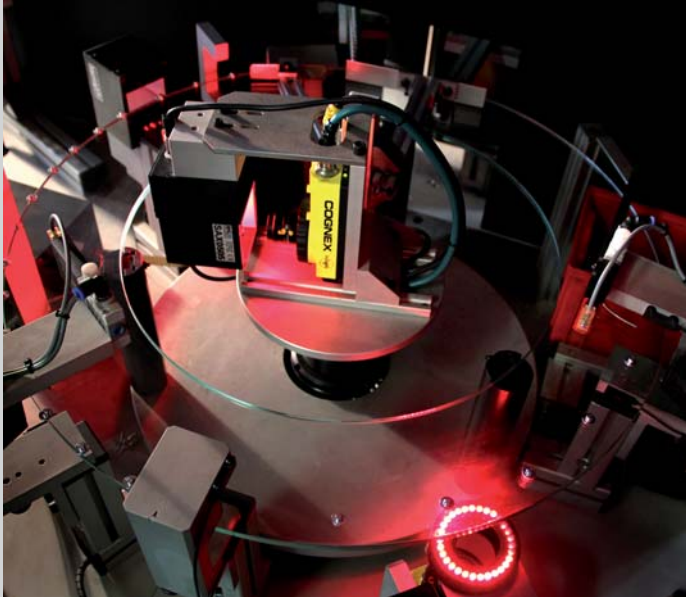

We are committed to achieve competitive advantages in customer service, and, thus, we manufacture high quality pieces, at the lowest cost and within the fixed delivery time.

Latest generation technology, a team of highly qualified professionals and the most advanced management systems are the key values that allow us to ensure customer satisfaction and service.

Quality and sustainability warranty

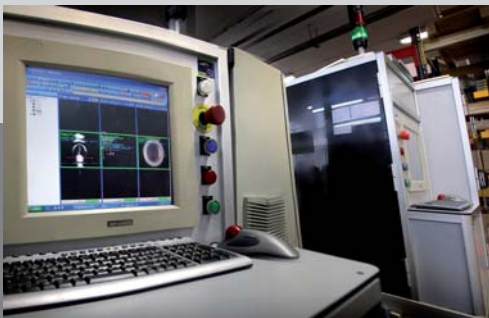

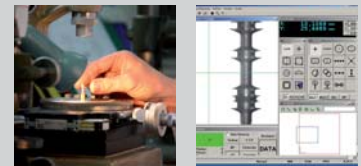

quality

TALLERES ARRECHE takes quality as a vehicle for improvement, based on a zero defects policy, service excellence and innovation.

commitment to environment

Constant environmental improvement is one of our challenges, and, to that end, we redefine and revise our environmental objectives and programmes regularly.

internationalization

We are members of the FASTENEX S.L. Export Consortium, a group formed by Basque firms that serves as a platform to international markets.

The export departments of TALLERES ARRECHE and FASTENEX have joined forces in this internationalization process.
